I'm still on the Cleveland EBS mailing list, so I like to put in my "two cents" worth every once in awhile !! Just wanted to say that we have a group of approximately 750 lives with AssureCare (as of 1/1/04) and they have done an amazing job. The implementation process was as smooth and painless as could be, the SPD process was painless and efficient, and the group and employees could not be happier with the way things are going.

I cannot speak highly enough of Kathy Webb of AssureCare. She is one of the best people in this business - professional, knowledgeable, responsive, and a really nice person. I have been to the Hudson, Ohio office several times, and their entire team is top notch.

I always say my life would be so much easier if we had all of our clients with AssureCare!

Mary
